The Wonder

Special
Hat SaleValves
Up to \$10 \$5

See the Window

We place on sale today a special line of trimmed hats in many of the very prettiest and neatest designs. They are mostly fine felt shapes trimmed in natty smart styles with wings, quills, ribbons, velvets, fancy ornaments and fancy feather effects.

Many of the models are strictly tailored; others are of a more dressy variety; all are effective and artistic. They comprise some of the very newest shapes such as mushrooms, rolling brims and saucer styles.

If you want a street hat to wear with tailored suits that looks well and is chic, you should see these; they are actually worth to \$10. Our special price is only \$5.00

Fitted Tailored Suits \$22.50

Plaid
Skirts \$4.95

A special line of plaid skirts, made of the same materials that sold earlier in the season for \$12.50.

Made in the new director one-piece models that button down the side—they are also trimmed with bias foot folds. Such attractive colorings to choose from as brown and tan, red and blue, navy and green. All sizes and lengths, including misses'. Our special price now is only \$4.95

Made of striped hard finished worsted; jacket has the new straight front and is made 32 inches long; is well shaped and well colored, and is lined with satin. Has a velvet collar and long sleeves with cuffs formed of three tailored folds.

The skirt is circular plaited with a graduating front plait; also trimmed with a 6-inch bias fold.

A suit that should sell for \$27.50; our price including alterations is only \$22.50

WE REGULATE WATCHES to a hair stop in and leave yours. No charge for the regulating. We do charge, however, for cleaning and repairing. Only very moderately, however, though we do first-class work. If you have a watch that won't go, bring it to us. We'll put it in condition so that you can regulate the sun by it. We are just as skillful at repairing jewelry, too.

FIRST PRESENTATION IN FRESNO OF "THE HONEYMOONERS"

"Kid Days" song in "The Honeymooners."

George M. Cohan's latest and best musical production, "The Honeymooners," will come to the Burton tonight. So great was its popularity that for months the New Amsterdam theater was packed nightly in New York, and seats sold throughout for \$2. This splendid production is on the road and the tour is proving to be as great a success as was the summer run in the metropolis.

Mr. Cohan is the most popular American writer for the stage and his music and his smart lines are part of the everyday life of everybody. In "The Honeymooners" he has written, composed and staged a song show that is crowded with musical action, beautiful catchy music and pretty girls. It is a typically Cohanesque production and that means that it is exhilarating, snappy, smart and tuneful.

WELL DRILLER HAS
SUED FOR DAMAGES

Jacob J. Anderson Left a Nice Estate Largely Cash.

Edward Turpin Under Life Sentence, Has Resolved to Prosecute Appeal.

Elmer Duck, who was employed as an oil well driller near Coalinga for the California Oil Fields (Limited), sued the company yesterday for \$15,000 damages. Duck represents through his attorney, Henry M. Brickley, that on the 7th of last November, while operating the derrick cable and crane, he was struck by a cable which was being pulled through the pulleys, his right hand was badly cut and lacerated, near the little finger. The cable in question was not the kind ordinarily used for hoisting and lowering casings in an oil well, but a wire and cable, which would not pass readily through the pulleys through which it was operated. Moreover some of the strands were broken and the loose points protruded. The allegation is that the material of the cable had been treated with a poisonous chemical of a kind that is a cut irritant of the person were caused thereby blood poisoning would follow. Duck was so affected and as the result of the blood poisoning had an operation performed on the right hand, resulting in permanent injury to the hand and paralysis, resulting in crippling. The injury is alleged to have been the direct and proximate result of the company's negligence in providing unsafe and dangerous machinery and appliances and not warning the operator against the fact.

Left a Nice Estate.
Widow Ida R. Anderson petitioned for letters in the estate of Jacob J. Anderson, the operator in oil lands, who died on the 17th of October from injuries received on the road from Kingsburg in an automobile accident. Estate consists of money on deposit as follows:

Bakersfield Abstract Co.	\$ 500.00
Bank of Bakersfield	405.41
Producers' Savings Bank of Bakersfield	5343.00
First National of Bakersfield	56.00
Notes and Mortgages	20,000.00
Six horses	450.00
Automobile	500.00

Besides there are shares of stock in various corporations, the market value of which is not known, but approximately stated to be \$10,000, at any rate the whole value of the estate is placed at not to exceed \$15,000. It is not known at this time either what proportion is community property. The widow is the petitioner and as her husband was a partner in the business, she is alleged to be the greater number of their residents of Kingsburg.

Johnson Estate.
W. R. Johnson, the eldest son, made application for letters in the estate of his father, Robert S. Johnson, who was 74 years of age when he died on the 24th ult., leaving an estate which

The plot is a coherent exciting affair of love and politics and making many complications in the town of Tigerville, Vermont. The author runs the gamut of small town characters and illustrates the conjunction of city manners and country ways. "The Honeymooners" is known as the "big Cohan show" in New York and the costly production bears out the phrase. There are no less than twenty songs and two score of as charming girls as ever left Broadway.

Among the lyrics are such hits as "I'm a Popular Man," "Kid Days," "In a One Night Stand," "If I'm There in the Public Square," and "If I'm Going to Die I'm Going to Have Some Fun." The cast is classy and large. Among the Broadway favorites who will present the Cohan entertainment are such well known players as Willie Dunlap, Walter Chester, Daniel Sullivan, Jack

London, Thomas A. Hearn, William Singer, Annie Wheaton, Gertrude Le Brandt, Rose Gluck and Alvin Phillips.

Play of the Race Track.
Play-goers who delight in crisp characterization in plays will once more have an opportunity to satisfy their desire when "Checkers" by Henry H. Blossom, Jr., comes to the Burton next Monday evening. This popular play has been called "America's greatest character play." Whether that be an exaggeration, there is no doubt but that varied characters abound in it.

It may be said that the parts of "Checkers," "Pett," Arthur and Sadie are characters, but they are most strictly classed as straight parts. Most conspicuous of the character parts is "Push" Miller, the native track tout. It is played by Dave Abraham, Jr., son of the late Dave Abraham, who wrote the never-forgotten songs of Harrigan and Hart. Young Abraham has played "Push" since the initial performance of "Checkers" five years ago.

Heckman doubted his ability to play the part which cast for it, and but for his manager's insistence that he could and must play it, would gladly have accepted a minor role. How capably fitted to interpret this rarely excellent drawing of the up-to-date, slangy race track tout, even ready for an emergency, Abraham is those who have seen the play during its former engagements here well know. Others may learn when he returns next Monday evening. In real life Abraham is a modest, unassuming chap, very musical and with a love of the arts.

The great sale for "Checkers" will open this morning at 9 o'clock.

Exciting Melodrama.
The Kluntz and Gazzola Amusement company, which has supplied the popular priced theatrical field with many melodramatic hits, has sent forth another winner called "The Rocky Mountain Express," which will have its initial presentation here at the Burton next Tuesday evening. A large company interprets the numerous characters of the play, which is in four exciting acts and sixteen elaborately painted scenes, superbly. The great sale will open on Saturday. Prices 25, 50 and 75 cents.

Knickerbocker Style.

NEW OIL COMPANY HAS BEEN STARTED

To Be Known as the New Bedford and Located in San Benito County.

At a meeting held recently at New Bedford, Mass., 132,955 shares of the old stock of the New England and California Oil company were transferred into the name of the New Bedford Oil company, which is the reorganized corporation representing the New Bedford interests which withdrew from the old company after its trouble with the courts.

The wells of this company are located in a rich section of San Benito county. Oil sand has already been struck and a good flow of oil is soon expected. All prospects point toward this being a very prosperous company.

Stock in this company is being sold by George E. Landry at Mendota. Details of this concern can be gotten by communicating with the gentleman.

Have had commercial agency on coast need financial aid and assistance to hold general agency. Will exchange references. Personal interview by appointment at Hotel Fulton, this week. E. P. BANKS.

Stop Swearing.
And remove that corn with S. B. Corn Point. It does the work when all other remedies fail. Genuine at Smith Bros' Drug Store.

Mail Orders.
Drug and photo supplies. Prompt attention—Baker & Colson Drug Co. R. C. Avery, piano tuner. Tel. M. 1248.

Proof is inexhaustible that Lydia E. Pinkham's Vegetable Compound cures women safely through the Change of Life.

Read the letter Mrs. E. Hanson, 304 E. Long St., Columbus, Ohio, writes to Mrs. Pinkham:

"I was passing through the Change of Life, and was tormented from nervousness, headaches, and other annoying symptoms. My doctor told me that Lydia E. Pinkham's Vegetable Compound was good for me, and since taking it I feel so much better, and I can again do my own work. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound did for me during this trying period."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

THE REPUBLICAN'S RETURNS.

Once more the Republican has maintained the record of being not only the first, but the only paper in Fresno to print the election news. It is a remarkable fact that for many years no evening paper in Fresno has been able even to copy, in its edition the afternoon following the election, the Fresno county returns, already published in the Republican in the morning. With all the gathering and tabulating of the returns already done, and nothing left but to clip them out and set up the type, even this has been beyond the boasted mechanical equipment of any evening contemporary, with twelve hours more to do the work than the Republican had. But the contrast was never so great as in yesterday's papers. The Republican, in its regular morning edition, had a table of the vote of the county in all the precincts then counted, with totals indicating the results, which have in no case been changed by the final returns. A later table, published at noon, was practically complete, and left no result in doubt. The Evening Herald, published at four o'clock, was able to do nothing better than to copy bodily the Republican's summary, and totals. It did not even add to them the figures received in the court-house after the Republican went to press, which were to be had for the looking at them. The Republican had to gather all its own returns, and had the results in print, on the streets, before the first of the unofficial return-sheets had reached the court-house, but the evening papers, with the new information no further away than the court house, and the Republican's tables on their desks, were not even able to do the mechanical job of printing the figures.

There is no trick in doing this except equipment, organization, money and work. The ordinary means of communication, in a county like Fresno, are utterly inadequate to gathering the election returns in one night. They are even inadequate in the day time, when the telegraph and telephone offices are open. It is necessary to organize a special service, with men to get and transmit the returns from each precinct. It is necessary to be equipped to receive, tabulate and print these returns, and to have a loyal crew of men willing to work, under high pressure, for thirty hours at a stretch, to handle the news. The recipe is simple enough, and we have explained it to our contemporaries once every two years. For reasons which may, perhaps be obvious, they have never followed it.

And so the Republican remains, not merely the first paper to print the news, but the only one.

SMALLER PRECINCTS.

One of the obvious lessons of the election in Fresno county is the necessity of revising some of the precinct lines, in the interest of a more prompt count of the vote. Two years ago the whole vote of Coalinga and of the outlying oil fields was cast in one precinct, originally established when that region was a nearly uninhabited desert. For this year three precincts were established, but even then the vote at the Coalinga precinct was twice as great as the vote of all three, two years ago, and many times greater than the whole region cast when the precincts were originally laid out. There should be sufficient precincts for convenience in the oil fields, and, in addition, fully three precincts in the town of Coalinga itself.

In the same way, most of the precincts in Fresno city are too large, and the two precincts in the northern end of town, laid out originally when that now populous residence district was a scattered suburb, are very much too large. They are usually the last two precincts in the county received and the count is much too long for human patience. Two years from now, with a huge blanket ballot on state, county and township offices, the situation will be even worse. There should also be more precincts in Sanger, and possibly in some of the other larger towns.

Aside from the delay in receiving the results, it is downright cruelty to humans to impose so long a task on election officers unaccustomed to the work. Newspaper men are used to it, and if they are kept up all night and all the next day working to get the returns to the public, it does not worry them. But, even in the matter of newspaper reports, the right of the public to prompt information is to be considered. And in the case of election officers, kept for long vigils at work to which few of them are trained and none of them regularly accustomed, the imposition is greater than should be inflicted. It is to be hoped, first, before the next election, the larger precincts may be subdivided.

GETTING OUT THE VOTE.

"Getting out the vote" costs too much. And yet there seems to be no cheaper way of imposing on the free American citizen his most sacred right. The privilege of self-government has to be inflicted on the people, and they submit only under protest to the boon of liberty. Men who would walk miles to collect a dollar bill demand to be taken in automobiles to cast a freeman's ballot. And we know as this is the case, somebody who wants the votes is going to pay for the automobiles.

The office of supervisor, in Fresno county, for instance, pays \$1500 a

year. Anybody who is fit to be supervisor, and who has sufficient acquaintance and public standing to be likely to be elected to the office, is presumably able to get a \$1500 job in private life, without making any fuss about it. But to get the job in public life, one is expected to spend in the campaign, largely organization, verifying and checking lists and in getting the electors out to the polls, an amount that no man, out of a \$1500 salary, can pay. Either the money must be put up, in pure friendship or patriotism, by disinterested outsiders, or it must be supplied by some interest desirous of investing in supervisors. Patriotic contributions are rare, and interested ones are dangerous. And one of the sources of graft is that we encourage our candidates to spend, in getting a job, more than they can ever get back out of the legitimate revenues of that job.

It is too expensive, but there is no other way to "get out the vote." Ideally speaking, that is no objection to economy, because the vote ought not to be "got" out. What does not "come" out ought not to be encouraged to pollute the ballot with its unclean presence. But you can't expect any campaign manager, in the midst of a hot campaign to act on this principle. Somebody is sure to try to "get out" the vote. Therefore everybody must.

The question of the guilt of Ruef was referred to a jury composed of the people of San Francisco, and Ruef was found guilty by the vote that elected Dunne.

The eleventh-hour last-minute campaign for capital reform was a brilliant piece of political work, but it was in the wrong cause to succeed.

The huge vote cast everywhere shows that absence of noise does not necessarily mean absence of interest.

Was there ever flaxie worse than the Hearst-made Higgen vote?

EDITORIAL OPINIONS OF STATE PRESS

Nye's "Record" Not Gillett's

As ex-officio member of the state board of equalization, State Controller A. B. Nye has been the means of compelling the railroads to contribute something like their proportionate share of the state's revenue.

The corporation attorneys found themselves confronted by a member of the assessment board who refused to wink at their "figures," who could not be influenced; and who would not be intimidated.

Bulked at every turn in their efforts to evade just taxation, and unable to escape the vigilant controller, the corporation attorneys determined that he should be removed. Herrin's man Gillett was appealed to. He obeyed orders, as a national court, issued an executive order ousting Nye, and "appointed" Frank Mattison, a Herrin man, in his place.

But this brilliant coup proved ineffective. The governor's action was clearly illegal, aside from its being a shameful piece of executive interference. The Superior court so held. And when the case was appealed by the angry corporation attorneys, the appellate court sustained the ruling of the lower court.

In the interim, Controller Nye, had been on the job every minute. The railroads were made to "come through" with their taxes in a way that quite nonplussed the professional tax-dodgers.

What has been the result? Increased revenues for the state and a decreased tax rate for the people.

Now comes the Herrin-politicians and the Herrin-press with the claim that credit for this fortunate state of affairs belongs, not to Nye, but to Gillett. And with unblinking impudence they point to the low tax rate as "Gillett's record!"

The state enjoys a low tax rate, not because of Gillett's efforts, but in spite of them. Had he succeeded in ousting Controller Nye, there would have been no increase in the assessments of the railroads and no low tax rate. The railroads would have "dodged" just as they have been "dodging" for the last quarter of a century.

The taxpayers this year will enjoy a 40-cent rate. And credit for it goes to that faithful and fearless servant of the public, State Controller A. B. Nye. It is his record, not Gillett's.—Los Angeles Express.

Clothes For An American Ambassador.

The American ambassador to Berlin, Dr. David Jayne Hill, furnished a front page story for the newspapers of that city by appearing at a recent court function in plain clothes. This does not mean that Dr. Hill looked like a policeman in disguise, but that he simply wore the primitive and unadorned dress coat, the undistinguished and effecting "blackout suit." It was a common sight at the opera, when all the high born functionaries, hump-wumps and big wigs gathered about the Kaiser in every variety of costume. "There sat," said a Berlin newspaper next morning, "the Austrian ambassador, who wore a picturesque doorman over his costume of a knight of the round table, and Sir Frank Lascelles, the British ambassador, in the glittering pride of a diplomatic uniform—where was it? In a journal who perhaps slipped boldly in? No. It was the new American ambassador, quite simply dressed in an evening suit, without a single star. Every open glass was leveled toward him. Our minds were turned to Mr. Charles Townsend, his predecessor, who on such occasions was wont to bedizen himself with gold.

How very distressing! We always feared that Dr. Hill would be guilty of some such faux pas when he got into a tuxedo at a reception.

In fact it was hinted that Dr. Hill had been seen riding on a bicycle with a basket on his arm containing the household marketing. In the days of Charlemagne Tower things were very different in Berlin. That famous citizen ambassador would have been pleased to wear the gilded dome of the Hibernian bank. They could not mistake him for a newspaperman.—San Francisco Call.

Beggs, Okla., is said to be the place where a minister marrying a negro couple, asked the woman: "Do you take this man for better or for worse?" She interrupted by explaining: "No, Judge, I want to better him. If he sits any worse I'll kill him myself."—Kansas City Times.

TAFT WILL TAKE TWO WEEKS OFF

Receives Thousands of Messages of Congratulation from All Parts of the Country.

CINCINNATI, Ohio, Nov. 4.—William H. Taft gave hearty expression this morning to the gratification he felt on his election as president of the United States. Business, labor and agriculture, he declared, had supported him. His success, he said, should be also the success of the country, if his ability and endeavor could make it so.

"Please say that I am perfectly healthy, but tired," was the message Judge Taft wished uttered for him tonight.

With Mrs. Taft he had enjoyed the pleasant household of the C. P. Taft family mansion today, going forth only once, and then to receive the plaudits of thousands of his fellow townsmen as they lined the streets and filled the windows for blocks to witness the parade of the Woodward High School pupils, faculty and trustees. Mr. Taft made the principal address at the coronation laying of the new building of this school, from which he was graduated when a boy.

The function gave the city an opportunity to pay its first daylight tribute to the president-elect, and full advantage was taken of it. Judge Taft did not refer to the election or politics in his brief address, but confined himself to the history of the school which had for him many fond memories.

A speech to the Women's Foreign Mission society of the Methodist Episcopal church, in annual session here, tomorrow morning, commercial club of the Cincinnati, and a banquet of the city, will constitute the public functions which will occupy Judge Taft before he leaves for Hot Springs, Va., Friday.

"I am going away for a complete rest of at least two weeks," said Judge Taft tonight. "No, I am not going to hold political conferences, nor to hold political sessions, nor to consider cabinet construction nor political appointments during this time. It is to be a period of as near absolute rest and quiet as I can make it."

Three thousand or more telegrams of congratulation have been delivered to Judge Taft today. Many came from business organizations and labor societies. C. L. Shearer telegraphed for himself and 1200 other honoring men in Oklahoma City.

"We are now assured of continued prosperity and we can't stop cheering. We are laboring men and don't fear your injunctions."

AS TO DROWNED PERSONS.

Absence of Water in the Lungs Need Not Indicate Murder.

Several cases have been reported in the newspapers recently in which the absence of water in the lungs of persons found immersed in ponds and rivers has led to the conclusion that death had occurred before immersion, and that the crime was therefore murder, and not suicide. As the matter is of great criminal importance, permit me to call attention briefly to the report, in 1885, of a committee appointed by the Royal Medical and Chirurgical Society of London to investigate this question.

It was a well-known fact that in most drowned persons water was not found in the lungs, and many a case of suicide had been proved by the absence of water in the lungs, and the entrance of the windpipe took place which prevented the entrance of water. The committee made a very careful and prolonged investigation and came to the conclusion which I summarize as follows:

First—Water does not enter the lungs in drowning. In animals drowned by immersion in water the lungs, if examined immediately afterward, are full of water. If a dog has drowned in a pond, the water is found in the lungs. If a pig has been immersed in mercury the globules of mercury penetrate the finer tubes.

Second—If the examination is delayed for several hours or longer, as is usually the case, no water may be found in the lungs, absorption having taken place after death. In experiments upon animals it was found that forty or fifty ounces of water could be imbibed by the lungs without any of the liquid being detected there an hour or two afterward.

In cases of undoubted drowning in human beings, when the examination was delayed for several hours after death fragments of water plants and other foreign substances may be found in the windpipe and larger tubes without any water being detected in the tissue of the lungs. Absorption of water takes place in the lungs after death, and therefore the absence of water in the lungs many hours after death has no bearing upon the question of murder or suicide. It is very important that this fact should be generally known.—New York Times.

WANTS A PENSION FOR POOR MOTHERS

Moned Spent For Reformatories and Other Institutions Should Be Used To Preserve the Home.

The foundation of society is the home. If the home is destroyed what is to become of the country? It children are not properly reared in normal homes they must be cared for in prisons, institutions, in reformatories, in asylums. These cost immense sums of money, and the children are not greatly benefited by the expenditure. On the contrary, an institution child is so rarely a success that the exception excites comment. The child is often better reformed by the course of her article "The Wreck of the Home," in Hampton's Broadway Magazine for November.

Why wouldn't it be reasonable to spend the money in pensions for dependent wives, widows, and women whose poverty would otherwise force them into industry? Why not give temporary pensions to the unemployed mothers, many of whom have children in the family? It would cost the state no more than it now costs to build and maintain prisons, institutions, juvenile courts, probation officers, and the rest of the vast remedial machinery.

Known to mothers might be better off at home. It is certain that the children would be.

These are facts which are immediately important and vital, not to social reformers, philanthropists, and sentimentalists, but to hard-headed men of business, property owners, taxpayers. Capitalist and bookkeeper, merchant and clerk, the entire middle class population, who directly and indirectly bear the burden of taxation. They are on whom this thing finally depends. They pay the rent of the workhouse—the evicted mother; they pay the fine-worked out on Barron Island and on the rock pile of the deserting husband; they pay the board—in institutions—for the homeless children. They are the ones who pay the price of future vagrancy and crime, for these children, whatever the nationality of their parents, grow up American citizens. It costs New York city alone \$4000 a week to feed and clothe its dependent children. I say nothing of dependent men and women. Figure out yourself what part of your income or your salary goes into this fund, and ask yourself whether or not these facts are of direct interest to you. I instance New York in particular, but because these facts are peculiar to New York. They are not.

The same problems confront you who live in Chicago, Boston, Pittsburgh, St. Louis, Cincinnati, Toledo, Detroit, Omaha, Kansas City, Denver, in whatever community the industrial wheel turns the mill, the factory, the packing house, the non-union service—the service of women. And the price more and more is the spreading wreck of family life in America.

KISSES MOTHER GOODBYE THEN COMMITS SUICIDE

BELLINGHAM, Wash., Nov. 4.—Kissing his mother goodnight, and then committing suicide, was the strange end of the life of a young man, Miller C. Scutten, one of the most widely known men in the city, and owner of extensive lake lands and timber lands in the county, fired a bullet into his brain this morning, and died two hours later in St. Luke's hospital. Business troubles are assigned as the reason for the act, as he had threatened to kill himself recently.

PROSPERITY AND POLITICS.

Is the Volume of Business Influenced by the Campaign?

No attention whatever is being paid here to the promises, which goading business certain establishments to have made at the election of Mr. Taft will be followed by more work. It is only natural to suppose that some business is being held back on account of the presidential campaign, but it is also likely that recuperation will in any case be slow and halting during the next six months.

There are favorable features in the outlook. One is that stocks in jobbers' hands are really low. But the ease with which orders can be filled in itself an argument against carrying large supplies, and it seems scarcely certain now that the operating capacity of the mills hereabouts will not be more than 60 per cent to the end of the year.

Yet it is fair to say that the feeling of Pittsburgh manufacturers here is this week rather more optimistic over the business outlook. The iron and steel industry, taken as a whole, is still not operating much over 50 per cent of the maximum, and the volume of new orders is generally conceded as small. Specifications against old contracts have been comparatively fair, however, and this largely accounts for the recent moderate increase in the operation of the larger mills, like Duquesne, Homestead, Ohio Steel, and Illinois Steel, of the Steel corporation, and the larger independent competition for new business on the

other hand, is so keen that sales departments of the various operating companies make every effort to secure the tonnage offering. As a result, prices are being shaded, not only by the independents, but by subsidiaries of the Steel corporation.

Pittsburgh feels that the increased use of rolling stock marks the nearer approach of new orders for equipment. Most companies in the Pittsburgh district report slightly larger orders for "repair parts," but new business is limited.—Pittsburgh Dispatch to New York Evening Post.

IT IS UP TO WASHINGTON.

New Opera House Depends Upon Support Given Project in Capital.

The Washington Post, in an editorial last week, comments upon Oscar Hammerstein's apparent acceptance of the National capital in his own house, and the fact that if the impresario's expressed desire "to be helpful in cultivating a sense of musical appreciation in this country," is sincere he has no just cause for abandoning his project to erect an opera house in that city.

Many of Washington's public-spirited citizens do not seem to realize the magnitude of such a project. Even Mr. Hammerstein's wealth—which, by the way, must necessarily be tied up to some extent in his two ventures in New York City and Philadelphia—and characteristic aggressiveness in the prosecution of his plans, cannot overcome a "lucky-warm split" on the part of a city's leading figures. The only cause for the abandonment of the Washington scheme was this lack of interest expressed in an insufficient assurance as to public support.

Mr. Hammerstein's experience in Philadelphia this summer will unquestionably make him more conservative in his search for new fields of activity, and the new world of conducted novelties, requires enormous financial backing. The patronage of the less expensive seats, be it ever so promising, cannot assure the success for even one season without the liberal support of those who are in a position to make orchestra and box subscriptions.

Let Washington give evidence of its willingness to support Mr. Hammerstein to the extent which experience has taught him is necessary, and the realization of his dream is not far off. His expressed views are correctly interpreted, he will be only too glad to give the national capital a home of grand opera which will be second to none in the capitals of other countries.—Musical American.

WEATHER

SAN FRANCISCO, Nov. 4. (The press.) It is falling slowly over Nevada and Utah. As yet no rain has fallen on the Pacific slope, except in the Puget Sound section.

It is much cooler along the coast of California and slightly warmer in the San Joaquin valley. Forecast: San Joaquin valley—Fair, Thursday, light north winds.

General Conditions.

The pressure continues high throughout the interior of the United States and the middle Atlantic slope, with cloudy weather in the Mississippi valley. The temperature has remained nearly stationary in all sections. An area of relatively low pressure on the Gulf coast has caused rains in that region. Low inches have fallen at Montgomery during the past twenty-four hours, and it is still raining in Alabama and Georgia. A moderate depression is moving eastward over the Great Lakes and light precipitation has fallen in Vermont. The weather is cloudy over the greater portion of the Pacific coast and clear, with slight fluctuations in temperature, throughout the interior. Rain has fallen in the region of Puget Sound and Washington and Oregon.

J. P. ROBERTSON, Official in Charge.

During the month of October, eight
cases of diphtheria were reported to
County Health Officer Long, three in
Dardanelle and one in the city. In
Dardanelle, near Kirk school house, in
Kunne's colony, on the Bagdad ranch,
in Belmont and Madison additions.
The ninth case was reported over the
phone from Peter's addition and was
the only fatal case. The patient,
though being in a dying condition
when the city health officer called in,
others received anti-toxic treatment
and were promptly relieved. Laton
reported several cases of scarlet fever,
near there. School was closed for
a few days on account of the epidemic,
but prompt quarantine by Laton
shortly after school opened and to the
trouble. There have been children
kept from school on account of sore
eyes. Some of the school trustees
are slow to enforce the vaccination
law, but the enforcement, says Dr.
Long, will soon be general in the
county, and the school authorities of
the schools having made compliance and
as the report says, "there are always
some people who seem to like to con-
template along the end. Those people
were the tardy scholars in school and
are always late."

MEETING CALLED OF
CENTRAL W. C. T. U.

Central Union of the Woman's Chris-
tian Temperance organization will
meet this afternoon at 2:30 with Mrs.
Blaney at 329 O street. A cordial
welcome is extended to all and the fol-
lowing program will be given:

Wall Papers in the latest colors and patterns:

25c Papers for **15c**

35c Papers for **20c**

40c Papers for **25c**

SOCIETY

The big social event of the week will be the first Eclectic dance to be held at the Eclectic hall. Society is looking forward with pleasure to this first dancing function of the season and it will doubtless be a brilliant affair. The introduction of some of the old-fashioned dances, like the waltz, will give the four winter assemblies of the club additional interest. James Gearhart, the club president, has completed the arrangements for the first dance and one young judge from the city will be present to give the four winter assemblies of the club additional interest.

Mr. and Mrs. Louis Einstein and Miss Elsa returned on Monday night from Napa, where they went to attend the wedding of Miss Ethel Duerce and Stuart MacKroth of San Francisco. The marriage was solemnized at noon on Sunday, Judge Goodford of Napa officiating at the ceremony. Only the immediate relatives of the young couple were present at the wedding. Yellow chrysanthemums and autumn leaves formed the decorations of the house. Following the noon ceremony a wedding breakfast was served. The table was decorated with the prevailing tones of yellow and blue. The bride was married in her traveling gown of navy blue cloth and when going away time arrived donned a most becoming blue hat to match. Mrs. MacKroth is the eldest daughter of Mr. and Mrs. D. J. Duerce of Napa. She has hosts of friends among the younger set in Fresno, where she has visited on several occasions, and with whom she is immensely popular. The bridegroom belongs to a well known San Francisco family and is a most successful young business man. For the present Mr. and Mrs. MacKroth will make their home with the former's parents in San Francisco. They are spending their honeymoon at Del Monte.

Mrs. Frank Romain entertained the members of the Birthday club yesterday at the first meeting of the season. Luncheon was served at half-past 12 and afterwards the usual pastime of bridge proved most entertaining.

NEAR DEATH'S DOOR

Doctor Said Mrs. Lucier's Stomach Was Worn Out, But Mi-o-na Cured Her.

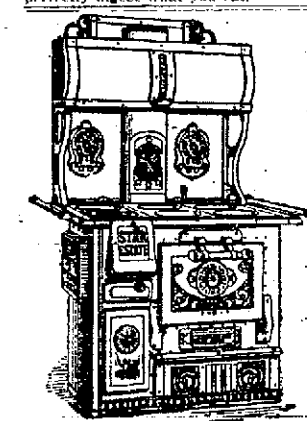

Why, oh why will people of intelligence continue to suffer with dyspepsia or distressing stomach troubles when Mi-o-na, the only scientific remedy, has a record of thousands of just such cures as the following:

"I was near to death's door. The doctor said he had done all he could; that my stomach was worn out and worn out. I was so weak I could not walk. I took Mi-o-na tablets, and have been eating hearty ever since, and I am able to work like a tiger. I wish I could give you a picture of myself. I send you my picture, and you can use my word and my picture, and I thank you again."—Mrs. Nelson Lucier, 112 Fisk St., Athol, Mass.

Mi-o-na cures dyspepsia. There isn't a particle of doubt about it; and if any of the readers of the Republican are suffering from stomach trouble of any kind the San Joaquin Drug company will sell you a box of Mi-o-na for 50 cents with an absolute guarantee of relief or money back.

In many cases one box will effect a permanent cure; in chronic conditions more is necessary. But one thing is certain; one box of Mi-o-na will make you feel so much better and brighter, so much more energetic, that you will not give it up till cured.

Mi-o-na is not a digester. Digesters never cured dyspepsia, and never will. Mi-o-na is a stomach strengthener that builds up the worn out, flabby inside of the stomach, and makes the stomach strong enough to perfectly digest what you eat.

laining. The luncheon table was attractive in decoration of lovely pink chrysanthemums. Mrs. George Monro, won the prize for high score. Substituting for absent club members were Mrs. Frank Shepherd, Mrs. L. G. Gray, Mrs. H. C. Baker, Mrs. Harvey Smith, Mrs. George Downing will entertain the club next Tuesday.

Mrs. Henry Pratt and her youngest daughter, Laura, have gone to Berkeley to visit Mr. and Mrs. W. C. Colson for a few weeks.

Miss Adelaide Grant entertained last night a jolly little theater party in honor of Miss Farmer of Oakland. After enjoying the performance of "The Isle of Spain" at the Harton, the party partook of a midnight supper at the Hughes grill. Sharing Miss Grant's charming hospitality on this occasion were Miss Farmer, Miss Osterman of Berkeley, Miss Annand Cummings, Willard Bates, Ivan Lindon, Tullius Tupper and Edward Grant.

Miss Florence Webster of Ocosingo, Michigan, is the guest for several months of Mr. and Mrs. D. V. Allison. Miss Webster is a cousin of her hostess.

A pretty wedding was solemnized last evening at the home of the bride's parents, Mr. and Mrs. W. J. Downing of 1345 L street, when their eldest daughter, Miss Grace, was married to the son of Mr. and Mrs. W. J. Downing of this city. The bride is a most accomplished girl and possesses an unusually attractive personality. She has a host of friends among whom she is deservedly popular. For the past few years she has been employed as stenographer for Sutherland and Barbour, the well known law firm.

The groom is equally well known and much liked among his business associates. He came from the East several years ago and holds a position with Holland & Holland.

The pretty rooms of the Downing home were picturesquely decorated in greenery and yellow blossoms. In a corner of the living room where the ceremony took place an archway of asparagus fern was arranged with an effective background of green vines. From the center of the arch hung a basket tied with white tulle and filled with large yellow chrysanthemums. Clusters of yellow chrysanthemums completed the decorations of the reception rooms.

The ceremony took place at 5 o'clock. Rev. Duncan Wallace officiating. To the strains of the Lohengrin bridal chorus played by Miss Della Yeagrin at the piano, the bride and groom took their places. They were unattended. The bride wore a lovely picture in her wedding gown of soft satin messaline fastened in the Empire style and having a yoke and sleeves of sheerest net. She wore a long tulle veil and carried a shower of white carnations and maidenhair fern.

Following the ceremony and congratulations with which their friends showered them, dainty buffet refreshments were served. Among the out of town guests at the wedding were Mr. and Mrs. Frank Baldwin of Los Angeles, the latter a sister of Mrs. Downing. Others present were Mr. and Mrs. H. D. Cloyd, Mr. and Mrs. J. A. Benham, Mr. and Mrs. F. J. Haber, Mr. and Mrs. J. L. Ashton, Mr. and Mrs. D. L. McCarthy, Mr. and Mrs. W. S. Sherman, Mr. and Mrs. John Colson and family, Mr. and Mrs. H. Herold, Mr. and Mrs. W. E. Bette, Mr. and Mrs. J. D. Downing, Mr. and Mrs. A. G. Scott, Mrs. A. Sweeney, Mrs. A. M. Kalkquest, Miss S. M. Kalkquest, Miss Nadine Sweet.

The Truth About Kidney Trouble (BACKACHE)

Backache as a cause of kidney trouble is outrageously abused, for there is not one case in five in which that is the evidence of inflammation in the kidneys. The kidneys are not sensitive and seldom reflect pain.

Backache is commonly an evidence of lumbago, or shows a neuralgic or rheumatic tendency in the muscles of the back. In chronic cases in which it does proceed from the kidneys, it reflects an acute inflammation that usually yields very quickly and definitely to Fenton's Renal Compound.

But, as above, where backache is the only reason one has for suspecting the kidneys, it will in most cases be found more closely related to the muscular system than to the kidneys. Kidney disease, first or last, is inflammation in the kidneys, and there has been nothing on druggists' shelves for inflammation in the kidneys. The late John J. Fulton was the first man in the world to reach and reduce inflammation in kidney tissues, and his Renal Compound is the first real specific for kidney disease.

Literature mailed free.

ney, Misses Stella and Juanita Ragdale, Miss Della Yeagrin, Mrs. Annie Brenninger, Messrs. Clarence Wallace, Jack Spears, Derrill Rominger, Ernest Verble.

Mr. and Mrs. Vandenberg have deferred their wedding journey until next spring, when they expect to go East on a visit to the groom's parents. They are to make their home for the present with Mr. and Mrs. Downing.

The annual chrysanthemum sale of the ladies of St. James Guild will take place on the evening of the 11th, the date to which it was postponed from the 2nd, out of respect for the memory of a deceased member of the guild and co-worker in the church. For the 11th attraction there will be the same varied attractions that were announced for the original evening and attractions of a character that have made these annual sales events that are loved and well patronized. In arranging for the later date, it has been taken to close one that shall not conflict with any other social event.

Last Saturday evening the young people of West Fresno gathered at the home of Mrs. Coughlin to celebrate Halloween. The evening was pleasantly spent with music and games and refreshments were served. Those present were Mrs. Coughlin, Mrs. Parsons, Ruby Price, Pearl Gas, Ruth Crow, Edith, Josie, Louise, Minnie Briggs, Lillian Hollingshead, Edna Coughlin, Lena Dawson, Myrtle Harbert, Arthur Sowers, Ray Barnham, Walter Dawson, Clarence Hollingshead, James Dawson, Fern Marks, Edith Hollingshead, Irene Young, Gerald Fincher, Evert Hart, John Gash, Truman Coughlin, Otto Fincher, Loren Ross, Jessie Parsons and Vivienne Coughlin.

EIGHT MARRIAGES AFTER ELECTION DAY

Forecasted by the Licenses That Were Issued Yesterday by the County Clerk.

Eight couples united until after election day to see how the cat would jump before taking out licenses to marry and usher in a new era of prosperity for them. And eight licenses is the record for marriage licenses on the day after the election. The last prospective bride of the day—front to back—by the way—had such sublime faith in the future that she was undeterred in the step by the spectacle of her sister, who with other relatives accompanied her to the clerk's office. It was an unusual case, in having three children hanging to her skirts. Licenses issued were to the following named:

John E. Levy, Iowa born, aged 25 and resident of Squaw Valley, and Mary Applegate, Missouri born, aged 21 and resident of Dunham.

H. P. Nielsen, aged 42, and Sine Mikkelson, aged 11; Danish born and residents of Del Rio.

Thomas L. Graves, Kansas born, aged 41, and Ida M. Butts, Missouri born, aged 31; residents of Selma.

Will F. Vandenberg, Indiana born, aged 24, and Grace Downing, California born, aged 22; residents of Fresno.

Edward L. Koets, California born, aged 27 and resident of Oxnard, Ventura county, and Laura E. Marston, Iowa born, aged 18 and resident of Fowler.

Ray E. Hickok, aged 26, and Leon Bijan, aged 20; California born and residents of Fresno.

Alfred E. Virgil, aged 24, resident of Los Angeles county, and Louise Steffenson, aged 20, resident of Los Banos, Merced county; California born.

Alberto Pierini, aged 29, and Flora Pierini, aged 23; natives of Italy and residents of Merced county. This couple was not related within the degree of consanguinity, or else the license would not have issued.

SETTLEMENT MADE FOR PAID UP TAXES

First Month's Total of Over \$84,000 Largest on Record as Books Show.

Cashier V. R. Smith of the county tax collector's office made his settlement with Auditor Harmon on collections of taxes, which commenced on the 12th of last month. He made settlement on the following basis:

County \$74,374.41
City 5,425.25
Selma 150.19

Total \$84,670.00

"This is a big showing for the first month's collection of taxes and exceeds by \$30,000 any previous settlement at the same time so far as the books show," said he. "And the remarkable fact is that the payments are being made on both installments at one time with only a small number as the exception not doing so. W. Parker Lyon has been up to date in the largest individual payment of taxes, turning in over \$700. All the big rate payers have been paying in full, also. The People's Savings bank of Sacramento paid up on the second day with \$1500. The German bank of San Francisco has paid in about \$300 and the Sacramento bank is one of the largest taxpayers on mortgage interests. The banks generally hold on to the last in making payments so as to save all interest money."

RAISIN-POOL IS GAINING STRENGTH

It is Hoped to Have the Kearney Estate Signed Up by Next Saturday.

Editor Republican—It has come to my notice this week that some of the growers who have signed the pool believe they will sell their raisins if they can secure the pool price of 4 cents. This is not so and it is not right that any grower who has signed his crop should sell on the outside. It is not would be very bad policy to do so. Of course the members of the pool cannot hinder any grower from doing so, but no grower should be so selfish as to do such a thing, for if a grower is offered 4 cents today, it is because he has extra good raisins, or it is to help break up the pool by making the grower dissatisfied because the pool is too slow in forming with a sufficient quantity.

Now let me urge every grower who has signed his crop to be loyal to the pool, stand firm and induce your neighbors to be with you if he has not already joined. We are sure to win out by being loyal to one another. We shall hold another meeting next Saturday in Fresno hall, Fresno, at 11 a. m. and I feel certain we will be able to announce at that meeting that the Kearney estate crop is signed with us. Every grower who has the feeling of the right kind within him, to wit, that he wants to benefit this community as well as himself, will sign with us and his neighbor who is in the same business.

Let me urge again on every one who has signed to stand firm and don't break faith with your neighbor. I know that last Saturday 23 estates were offered and in one instance 4 cents; hence if one grower can do this so can others. Don't be fooled with the cry that the raisins cannot be sold. Annapolis on every day and all the year round and they are selling at 10 cents a pound. Stand firm and attend the meeting next Saturday.

JOHN FAIRWEATHER.

RULE IS HARD AGAINST ALIENS

Test Will Probably Be Made on Naturalization Hearing.

It is as to Source of Knowledge of Witnesses on the Final Application for Papers.

Carbo White, who attends the naturalization proceedings quarterly in the superior court, representing the United States district attorney's office, since the federal government under a new law keeps a closer surveillance on citizen making, has been making the courts and judges also that the two witnesses of a petitioner to qualify on the final hearing must have five years' continuous knowledge of the applicant for citizenship immediately preceding the day of hearing and that the knowledge must be derived from living in the same community with the applicant, in other words demanding an intimate personal knowledge and relationship.

It is not disputed that the federal regulations regarding naturalization proceedings can be construed to warrant such a reading, but on the other hand it is asserted that the strict interpretation of "interpretation" as to knowledge based on a five years' residence in the same community is one rather of the deputy and not always a reasonable one. A case in point came up yesterday and not unlike a test case will be made of it to pass on the interpretation complained of, and which in this particular case would be a denial of citizenship right, save perhaps at expense and delay with doubtful success in obtaining depositions of witnesses who have known the applicant from a continuous residence in the same community.

The case is that of a young Swedish laborer, a relative of the Swedish minister at Scandinavian colony. His two witnesses have known him for five years partly from living in the same community with him in the East and partly from correspondence and other connections during the other period. The witnesses have not seen him personally for four years because he had come out to Fresno and he did not follow them until one year later.

During the four years interim they knew of him from correspondence, and being a laboring man it is doubtful whether the young Swede, who is present and resident of Dunham, prepared to become a citizen on final hearing, has lived anywhere continuously for five years in America, to enable him to produce the witnesses of the fact either in person or establish the fact by deposition.

HAYS SINNED IN JUDGING NEIGHBORS

So Says John C. Christie in Discussing Whether Christ Drank Wine.

Editor Republican—I think that every fair minded man who is an advocate of total abstinence from all intoxicating liquors or pot, will approve of the attitude you took in your editorial on Sunday headed, "Did Christ Drink Wine?"

I think that if Evangelist Henry made the intemperate statement reported that "if he ever came to believe that Christ made alcoholic wine he would leave the ministry," his words are worthy of the severest criticism and rebuke, and I am glad to see that your correspondence column condemns such "intemperate statements" when he says, "I believe if Christ were here he would rebuke many of those utterances of these blind guides." And yet almost in the next sentence Mr. Hays says, "No man can be a Christian and be a politician, because to him a Christian is to be a follower of Christ."

I fail to see the force of Mr. Hays' logic and if any one can explain where in the statement of Mr. Hays is more "intemperate" than this one of Mr. Hays himself I think he deserves some credit for his ability in splitting hairs. Certainly one of the chief lessons which Christ taught was "Judge not which ye be not judged," and who, I think, is not Mr. Hays that he preaches to set himself in the judgment seat and say who is and who is not a Christian?

Does Mr. Hays forget that in doing

CHARCOAL REMOVES STOMACH POISONS

Pure Charcoal Will Absorb One Hundred Times Its Volume in Poisonous Gases.

Charcoal was made famous by the old monks of Spain, who cured all manner of stomach, liver, blood and bowel troubles by this simple remedy.

One of the most famous Frenchmen held forth in various lectures on the medicinal properties of European physicians and surgeons. He called his name. He was old, quiet and very determined. His brother in medicine laughed at his claims. "Thereupon he swallowed two grains of strychnine, enough to kill three men, and ate some charcoal. Two days later he was found dead, but he did not even have to go to bed. The charcoal killed the effects of the strychnine and he was famous. Ever since that day physicians have used it. Run impure water through charcoal and you have a pure, delicious drink.

Bad breath, gastritis, bowel gases, torpid liver, impure blood, etc., give way before the action of charcoal. It is really a wonderful adjunct to nature and is a most inestimable storehouse of health to the human system who suffers from gases or impurities of any kind.

Stuart's Charcoal Lozenges are made of pure willow charcoal, sweetened to a palatable state with honey.

Two or three of them cure an entire case of bad breath. They should be used after every meal, especially if one's breath is prone to be impure. These little lozenges have nothing to do with medicine. They are just sweet, fresh willow, burned to a nicety for charcoal burning and fragrant honey, the product of the bee. Thus every lozenge comes to man from the lap of nature.

The only secret lies in the Stuart process of compressing these simple substances into a hard tablet or lozenge, so that ice, evaporation or decay may not assail their curative qualities. You may take as many of them as you wish and the more you take the quicker will you remove the effects of bad breath and impurities arising from a decayed or decaying meal. They assist digestion, purify the blood and help the intestines and bowels throw off all water waste matter.

Go to your druggist at once and buy a package of Stuart's Charcoal Lozenges, price 25 cents. You will soon be told by your friends that your breath is not so bad as it was. Send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

this he arrogates to himself a function that belongs to Almighty God alone, and besides this he makes a statement which is untrue and detrimental to the good name of many a good man and sincere Christian?"

The son of migrating neighbors is entirely too common and comes of a spirit of self-righteousness which our Lord painfully condemned and I would remind Mr. Hays that "charity thinketh no evil" and while giving him credit for the best of motives I cannot but wish with you that he and other "temperance" advocates, would not set on your every sensible suggestion and base their arguments on twentieth century American truths which are abundantly available.

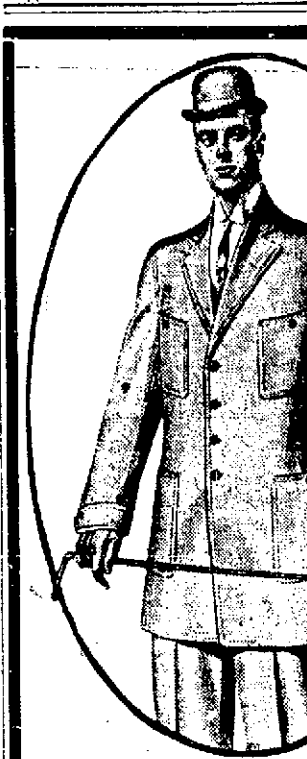

Yours truly,
JOHN A. CHRISTIE,
Fresno, Cal., Nov. 4.

THOUSANDS TAKE THE BITTERS

exclusively in ailments of the Stomach, Liver, Kidneys and Bowels. They know from past experience that it will do for them, and if you are a sufferer from the above ailments, be wise in time and take

HOSSETTER'S STOMACH BITTERS

at once. It will do you a world of good, especially in cases of Poor Appetite, Headache, Flatulency, Indigestion, Dyspepsia, Colic and Grippe.

Never in the history of Fresno clothing sales have such genuine bargains been placed before our citizens.

Prices on all wearing apparel have been reduced to increase the selling.

This store is determined to do the largest clothing business in its history this month.

Today

Never in the history of Fresno clothing sales have such genuine bargains been placed before our citizens.

Prices on all wearing apparel have been reduced to increase the selling.

This store is determined to do the largest clothing business in its history this month.

Supremacy

In Tone, Action and Durability because each of the different parts receives careful, rigid, scrutinizing inspection.

Then the piano in its entirety is severely criticised by a corps of experts.

If there's anything wrong, we intend to find it before you do. If we don't—

Our Guarantee

Protects

You

Stuart's Charcoal Lozenges are made of pure willow charcoal, sweetened to a palatable state with honey.

Two or three of them cure an entire case of bad breath. They should be used after every meal, especially if one's breath is prone to be impure.

These little lozenges have nothing to do with medicine. They are just sweet, fresh willow, burned to a nicety for charcoal burning and fragrant honey, the product of the bee. Thus every lozenge comes to man from the lap of nature.

The only secret lies in the Stuart process of compressing these simple substances into a hard tablet or lozenge, so that ice, evaporation or decay may not assail their curative qualities. You may take as many of them as you wish and the more you take the quicker will you remove the effects of bad breath and impurities arising from a decayed or decaying meal. They assist digestion, purify the blood and help the intestines and bowels throw off all water waste matter.

Go to your druggist at once and buy a package of Stuart's Charcoal Lozenges, price 25 cents. You will soon be told by your friends that your breath is not so bad as it was. Send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.
